# Escort Stair Lift

The AmeriGlide Escort Stair Lift is a simple solution for those who are having trouble navigating their straight staircase. Whether you are experiencing a temporary decline in mobility due to an injury or you need a more permanent solution, the Escort can provide a safe and reliable ride. This model also features a comfortable seat, quiet performance, and a modern design that will compliment any home.

Perhaps best of all, the Escort is an incredibly affordable model that is easy to install. In just a matter of hours, a single person can attach the track to the stairs and have the unit up and running. Installation only requires 3 basic tools and the DIY design will save you hundreds.
