

Affinity Residential Elevator

Comfortably access *all*
of the home you love.

AmeriGlide
ACCESSIBILITY SOLUTIONS

Take quality and style to the next level — *no matter the size of your home.*

The **new** Affinity Home Elevator — AmeriGlide's through-the-floor elevator, seamlessly transports you from floor to floor with ease and elegance. Its sleek, ultra-compact design, makes it an ideal solution for homes with limited room.

This two-person, two-stop standing elevator will safely take you between floors in with ease. With its smooth operation, minimal noise, and advanced safety features, you can ensure a comfortable and reliable ride every time.

Our Affinity Home Elevator meets the highest standards in quality and safety, so you will have peace of mind for years to come. Whether for accessibility needs or just to add a touch of luxury, the Affinity is the perfect alternative when a stair lift won't do the trick.

Fits up to two people

Can fit into 35" wide spaces

Travels up two floors

**Controls conveniently
integrated *into* the
handrail for easy use**

With just the push of a button you can glide effortlessly between floors with the Affinity Elevator, eliminating the worry of navigating the stairs.

Where mobility meets luxury, with standard features that exceed expectations.

The Affinity Elevator stands above the competition by seamlessly blending cutting-edge technology with luxurious design, offering an unparalleled user experience.

Unlike other elevators on the market, the Affinity offers features that come *standard* — *at no extra cost*, while offered as options on their elevators.
